[Change options](#)

OK

Cancel

New ASP.NET Project - tshirtsw eb

Base Template

Web Forms MVC Web API SPA Azure Mobile Services **ASP.NET 5.0**

Project content:

Empty MVC Views Layout Full app

Summary:

You are going to create a new empty web app built using ASP.NET MVC 6.

Auth: Individual Auth
Change Authentication

Azure: New website 'tshirtsw eb-10061423324'
Add Application Insights
Change Options

Unit test: ☒ New project 'tshirtsw eb.test'

Project: ☐ Add application tracing
☐ Add perf counters

OK Cancel

When either Change Auth or Change Options are clicked a new dialog appears

Alternate

New ASP.NET Project - tshirtsweb

Base Template

Web Forms MVC Web API SPA Azure Mobile Services **ASP.NET 5.0**

Project content:

Empty MVC Views Layout Full app

Summary:

You are going to create a new empty web app built using ASP.NET MVC 6.

Auth: *Individual Auth*
[Change Authentication](#)

Azure: New website 'tshirtsweb-10061423324' [change hosting options](#)
☒ Add Application Insights

Unit test: ☒ New project 'tshirtsweb.test'

Project: ☐ Add application tracing
☐ Add perf counters

OK Cancel

Alternate for previous slide which de-emphasizes how to configure Azure hosting
Also Add App insights checkbox is inline

Alternate

New ASP.NET Project - tshirtsweb

Base Template

Web Forms MVC Web API SPA Azure Mobile Services **ASP.NET 5.0**

Project content:

Empty MVC Views Layout Full app

Summary:

You are going to create a new empty web app built using ASP.NET MVC 6.

Auth: [Individual Auth configure](#)

Azure: New website 'tshirtsweb-10061423324' [change hosting options](#)
☒ Add Application Insights

Unit test: ☒ New project 'tshirtsweb.test'

Project: ☐ Add application tracing
☐ Add perf counters

OK Cancel

Alt of previous screen, in this case we use links instead of Buttons for Auth/Azure

Option 2

New ASP.NET Project - tshirtsweb

Base Template

Project content:

Summary:

You are going to create a new empty web app built using ASP.NET MVC 6.

Auth: Individual Auth
Azure: New website 'tshirtsweb-10061423324'
Add Application Insights
Unit test: New project 'tshirtsweb.test'

[Change options](#)

OK

Cancel

New ASP.NET Project - tshirtsweb

Base Template

Web Forms MVC Web API SPA Azure Mobile Services **ASP.NET 5.0**

Project content:

Empty MVC Views Layout Full app

Summary:

You are going to create a new empty web app built using ASP.NET MVC 6.

Auth: ☒ None
☐ Individual Accounts
☐ Organizational Accounts ([configure](#))
☐ Windows Auth

Azure: Sayed Ibrahim Hashimi 

☒ Host in the cloud

Website 

Name:

Region: 

[Additional website options](#)

☒ Add Application Insights

OK Cancel

In this version we try to inline as much as we can

New ASP.NET Project - tshirtsweb

Base Template

Web Forms MVC Web API SPA Azure Mobile Services **ASP.NET 5.0**

Project content:

Empty MVC Views Layout Full app

Summary:

You are going to create a new empty web app built using ASP.NET MVC 6.

Auth: ☒ None ☐ Individual Accounts ☐ Organizational Accounts ☐ Windows Auth

Azure: Sayed Ibrahim Hashimi 

☒ Host in the cloud

Website 

Name: tshirtsweb-10061423324

Region: West US 

[Additional website options](#)

☒ Add Application Insights

OK Cancel

Alternate to previous dialog. Here auth options are horizontal.

Option 3

New ASP.NET Project - tshirtsw eb
